

# JULIAN ROJAS

## FULL STACK DEVELOPER

Information Systems Analysis and Development with more than six years of experience in Full Stack development. I specialized in ReactJS, Angular, HTML, CSS, JavaScript, Java and C#, and have a strong focus on creating efficient and scalable applications. I have excelled at leading development teams and significantly improving technical debt management in previous projects. I am committed to technical excellence and continuous innovation, so I am looking for opportunities where I can bring my frontend and backend development skills to drive business success.
